Ph.D. Student, University of California, Berkeley 2017 – 2022
Advisor: Professor Nitash P. Balsara

- First demonstration of a miscible polymer blend electrolyte (two distinct polymers and a lithium salt) via neutron scattering experiments
- Quantified transport parameters and uncertainty propagation in poly(ethylene oxide) electrolytes via electrochemical techniques
- Synthesized hybrid organic-inorganic block copolymer electrolytes, characterized their ion transport properties, and determined their structure via x-ray scattering experiments
